RM – So sorry for the delay in responding. We would love the chance to speak with you. Last week turned out to be much busier than originally intended, but we would love to get on the phone asap.

Are there dates/times this week that work for you. We'll try to find corresponding window. Thanks so much! MC

Subject: Situational Awareness

Hello,

This email is in reference to our recent phone conversations regarding flooding and sewage concerns in Centreville and surrounding areas. As I shared with Mark Copeland yesterday, I had two complaints on Saturday of flooding. The individuals who contacted me gave permission to share their information.

1)

Ex. 6 Personal Privacy (PP)

*Resident complained of continued flooding in the area, which has previously resulted in structural damage to his home.

2)

Ex. 6 Personal Privacy (PP)

*Resident complained of flooding in area of her residence. She mentioned previously having concerns about a sewage smell in the area and in her drinking water after similar flooding events.

I indicated to both residents that I had recently been approached by Senator Duckworth's office and the EPA regarding the identified issues and that I would share their information with the representatives (& the Township Supervisor).
